Qualmax America provides sales, support and applications engineering for Leeno Probes. Leeno is the world leader in probe production capability

Qualmax America also has partnered with Interconn, a leader in custom designed contactors for PCB interconnections, battery contacts, specialized spring probes as well as providing cost effective solutions for custom designs.

“TechRep International is proud to represent Qualmax,” stated Philip Lauf, Director, New Business Development for TechRep. “The Qualmax’s Leeno probes and Interconn contactors offer additional ATE products to TechRep’s customers and provides the customer a customized solution. TechRep specializes in giving customers custom products and alternative solutions.”

For more information visit contact TechRep International (815-337-9294).
